ISRAEL FISHER, No. 2 King St., Honolulu. The following Certificate, from a medical man, speak AVING EXAMINED THE CHAMPAGNE CIDER, made by Messrs. Fisher & Son, of this city, I find it entirely free from any deleterious ingredient. On the contrary, its component parts comprise a beverage which I have never seen equaled for its anti-billious, tonic and invigorating properties. I have used it myself as a cholagogue, and I have prescribed its use for my patients. I commend it unhesitatingly as a refreshing and an eminently healthy drink for our tropical climate. I consider it the best thing of the kind that I ever met with.

CHAS. T. GULICK, Notary Publi THE RIDGE HOUSE

KEALAKEKUA BAY HAWAII.

THE HAWAIIAN ISLANDS ARE noted the world over for their unrivaled salubrity of climate. Certain localities in the group are especially favored in this way.—The District of Kona, on the leeward side of Hawali, has long been famed as a place of the leeward side of Hawaii, has long been famed as a place of resort for invalids with "onchital, or lung diseases. With its pure and mild atmosphere, with its absolute freedom from storms or high winds, with its porous soil which, with all its rich vegetation, retains no dampness and yields no malaria, and with an unvarying temperature—that of the American or Southeyn European June—ALL THE YEAR ROUND, the climate of Kona is one of the healthiest and most luxurious on the sloke.

the globe.

The undersigned, at his house at Kaawaloa, a house unequaled in the district for size, cleanliness, commodiousness, and thoroughness of furnishing, is prepared to give boarders excellent rooms and all obtainable comforts in the way of diet,

THERE ARE FRESH WATER BATHS on the premises, and fine sea bathing within a short distance. The steamer Kilauea and the schooners Ullama and Prince, run regularly between Honolulu and the Kaawaloa landing.

The undersigned employs no agents nor runners. His house speaks for itself upon inspection. A. A. TODD. Kaawaloa, Kealakekua Bay, Kona, Nov. 15, 1876. / d16

BOOKS, BOOKS, BOOKS!!

THE UNDERSIGNED HAVING BEEN American Cyclopædia.

Takes pleasure in calling the attention at the public to this great enterprise, which brings a library into every man's household. The American Cyclopsedia is the grandest work ever published in America; it is the knowledge of the centuries boiled down, the essence of all books crystallized. It stands on your shelves ready to answer every conceivable question, and gives in brief paragraphs the results of other men's years of tollsome investigation.

and gives in brief paragraphs the results of other men's years of toilsome investigation.

In this age no one has time to grope among the thousand and one different works for every fact required, even if the volumes stand on his shelves; while with a Cyclopedia, the matter in question is found at once, digested, condensed, stripped of all that is irrelevant, and verified by a comparison of the best authorities. Moreover, this compliation has been performed by special writers, who are the highest authorities upon the subjects with which they deal; so that this work is the epitome and ultimatum of all knowledge, and precludes the necessity of having other books. You are probably spending dollar after dollar for books which are only of limited scope, whereas the same money expended in the same small amounts for the American Cyclopedia, will purchase a library complete. It is not obligatory to take all the volumes now published upon the first delivery; a volume may be delivered once a month, or once in two months, at the option of the subscriber, and can be had in Library Leather, half Morocco or Russia bindings, ranging in price from \$5.50 to \$11.00 per volume. We would also call attention to Bancroft's

Native Races of the Pacific States, Acknowledged to be the grandest work of research America has ever produced, complete in five volumes, and will be served to subscribers at \$6.00 per volume in sheep.

RELEASED .- The bark M. B. Roberts, which has been in charge of the Marshal since the 19th of May under a decree of forfeiture from the Supreme Court for smuggling opium, was on Thursday last released by order of the Minister of Finance, the forfeiture having been commuted by a fine of \$1500. The costs of court and care of the ship during detention amount to nearly \$400 more.

SOMETHING NEW AT DICKSON'S .- We were recently shown two very handsomely coloured large size photographs of their Majesties she King and Queen, finished by an artist recently arrived from San Francisco, and now attached to Dickson's establishment, Fort Street. Some MONTHS ago, we spoke of the life-saving rafts, on board of the P. M. Co.'s steamers, after having inspected one obligingly shown to us on the "City of Sydney." The wonderful escape of so many people, from the sinking "City Zealand and Hawaii, and comes to the following of San Francisco," mainly owing to these rafts. proves the correctness of our remarks on that occasion. We notice that the last man to leave the sinking ship was Captain Waddell. At New York, \$5000 to \$1000 was offered that the report of the wreck was a hoax. They could not believe that every body was saved, and so doubted

A KINGDOM without a university looks like an anomaly. Education in this Kingdom is unquestionably on a respectable footing. The foundation of a Hawaiian national university is consequently not a chimerical idea. The King and country should feel proud at the thought of a Hawaiian University lifting its head beside all the other universities of the world. The Curriculum, of course, would embrace the faculties of law, medicine and divinity. A school of medicine is highly desirable here, as well as a law school, and a regular school of divinity. How is the Kingdom to be supplied with lawyers, doctors, and divines? A BERLIN telegram of May 28th states that the

famous Polish general in the revolution of 1863, Krysinsky, was shot at Warsaw by the Russians-Since the revolution, he lived at Paris as a refugee till lately, when he petitioned the Czar to be allowed to return to his native land. He was invited to return to Warsaw by the Russian government; but, upon his arrival, he was arrested, tried for rebellion, and condemned to the mines of Siberia. Then the poor man attempted to escape, but being retaken, was shot by order of the

AMUSEMENTS .- The Circus on Saturday evening was crowded with a well pleased audience. The advent of several performers of merit from California has added much to the variety and interest of the entertainments. Performance -At the Royal Hawaiian Theatre the company of artists styling themselves " The World-renowned Anglo-American Constellation," are the most finished in their line we have yet seen. The Brahams (Harry and Lizzie) whether in broad

comedy, society or character, possess a vitality

that is quite astonishing. Miss Braham has a sweet voice, with clear articulation, and she dresses in a style fit for the highest walks of opera or drama. Harry Braham the humorist, possesses a voice of rich compass and a power of facial exression and contortion truly remarkable. His ballad of "Honolulu Sal" is something to be remembered. Cheevers and Kennedy (the origi-nal Buffalo Boys) are the mimics of the age, the master linguists and quickest change artists ever seen—and their tour through England France and America was a continued triumph. As German peasants they have no equals; as the Irish Representatives they are thought to eclipse the great Power; and as negro delineators they are equal to old Daddy Rice. The company play

PROPERTY AND THE PROPERTY.

Fourth of July.

As an offset to the grand celebration of America's festal day last year, the observance of the Fourth was extremely quiet in Honolulu in 1877. Beyond the firing of a salute at noon, the display of bunting and the excellent concert by the band at Emma Square in the afternoon, there was no public demonstration. There were numerous picnics in the country, and private parties, and the youngsters (as well as children of a larger growth) let off lots of fire crackers, squibs and rockets. There were no accidents to chronicle, and but a small harvest of drunks at the

police station . At noon His Excellency H. A. Peirce, the American Minister Resident, at his villa in Nun anu Valley received the calls of the King's Ministers, members of the Diplomatic and consular corps, and his countrymen generally, and the usual toasts were honored. In response to that of the King, His Ex. J. Mott Smith spoke as follows

"In the name of His Majesty I thank you, Mr. Minister, for the toast which you have proposed, and which has been so heartly responded to by the gentlemen here present. It is a pleasure to him to be reminded by this toast, given in this place—the Legation of the United States—and on this day, the anniversary of the political birth-day of your great nation-of the long years of friendly and amicable intercourse which has subsisted between the two nations, and of the many and substantial proofs which the United States have given of their regard for the peace, prosperity and perpetuity of this Kingdom. He is reminded this day of the gigantic glazed lining underneath, to show off the pattern—
and that in society!' It is too much to expect
admiration for mental and bodily adornments, at maritime prosperity, and in science and intellectual achievements. He recognizes in you the Represen

tative of a great, free and prosperous nation.

"But on this occasion His Majesty regards the toast offered by you as containing a personal sentiment to which he may justly respond. He is aware that you are about to retire from the high office ests of your own country while maintaining the most courteous and pleasant intercourse with this. During this long intercourse, there has been no occasion that need be remembered with regret, and there remains naught of either an official or personal nature to be deplored or forgotten. You will leave to your successor archives filled only with the record of questions pleasantly disposed of, and documents of the most friendly and helpful character. His Majesty therefore will see your retirement with regret, and you will carry with you his best wishes for your future welfare and happiness. He will also accord to your successor the high consider-ation which the Minister of so great and friendly a power as yours may justly claim at his hands.
"Mr. Minister, in behalf of His Majesty I have

Monthly Letter from Europe, VI. LONDON, June 1st, 1877. The Hawaiian charge d'affaires here, Mr. Manley Hopkins, has addressed a circular in regard to emigration to Hawaii to the London papers, of which I subjoin a copy. The Daily Telegraph in combetween the advantages of emigration to New unfavorable, if not ridiculous conclusion : "It is safe to predict that New Zealand will always attain a preference over the Sandwich Islands. The climate and productions of the latter mark them out for the home of laborers of a totally different nationality The destined colonisers of the group are the Chinese, whose habits and tastes would be exactly suited They would have peace and plenty, and perhaps a whole island to themselves with full license for the erection of josshouses, &c., &c." Captain Colomb, R. E., recently delivered a lecture before the Royal Colonial Institute on Imperial and Colonial responsibility in war, in the course of which he advised the erection of a dockward in the South Pacific and another at Sydney for the construction and mainenance of the British fleet in the Pacific. He also condemned the policy of sending an unarmoured flagship the Shah, to the Pacific, where several ironclad vessels of foreign countries are already stationed. He will shortly lecture on the marine and military position of England in the North Pacific, showing her belplessness in case of war with Russia. The Mance Heliograph or Sun Telegraph consists of a small mirror mounted on a stand in conjunction with adjustments, a finger-key and a telescope, so that the sun's rays can be reflected with absolute precision to any required spot, the letters of the alphabet being indicated by long and short flashes in accordance with the Morse code. Communication of this kind has been successfully established between Ceuta and Algesiras across the straits of Gibraltar, a distance of nearly 20 miles, and also from Roorkee, Bengal, to Chakrata, distant 60 miles, where messages have been exchanged at the rate of ten words per minute. Might not these ingenious little instruments be of use in establishing the much needed communication between the different islands and across the stormy channels of Hawaii, where a cloudless sky would insure their constant effectiveness? The treaty between Tonga and Germany having been approved by the latter's parliament, has been ratified May 9th, and is now in force dating from November 1st,

The Repulse, late flagship in the Pacific since 1872, reached Spithead May 24th, while the new flagship Shah has left Valparaiso for Panama, from where Admiral Dehorsey may pay Honolulu a visit. The Elk, gun vessel, 4, Commander A. Tupman, sailed May 19th from Spithead for the Pacific and the Osprey, composite sloop, Commander the Hon. H. A'Court, has been ordered to prepare for the same station. The Hawaiian bark R. C. Wylie, Wolters, sailed from Bremen, May 20th for
